

The Cooking/Gardening program at B.V.S.P.S. is a favourite.

Violet Street's Garden and Cooking program has been established for some years now and continues to grow. This year it is under the guidance of Sara our garden expert and Andrew our talented chef that students get to learn gardening and cooking skills firsthand.

Students spend time in the garden each week and work alongside Andrew in the kitchen. Our 5/6 classes had their 'Community Lunches' recently whereby students invite a community member to join them for a lunch prepared by them and Andrew. Community lunches are a favourite at our school.
